

Position: Water Resource Engineer

Location: South Dakota

Minimum Qualifications

Brosz Engineering is currently seeking a Water Resource Engineer with an emphasis on Hydraulics to join our growing team. We are looking for candidates who are highly motivated, possess strong verbal and written communication skills, and work well in a team environment. Applicants must have 5+ years of directly relevant experience in civil engineering and be a Registered Professional Engineer or could obtain licensure in South Dakota within 6 months.

Primary Responsibilities

Water Resource Engineer duties will include the analysis and design of drainage related projects and will be directly responsible for the preparation of hydraulic models and technical reports. Conceptual and preliminary design activities would include site visits, fieldwork, alternate analysis, report preparation and presentation. This position will require collaboration with the rest of the land development, municipal, and transportation design teams as well as any applicable resource agencies to ensure that all the project requirements are met. Engineer is expected to maintain a high level of professional service to the Company's clients in an accurate and timely manner.

Work Conditions and Schedule

General professional business office conditions with office hours of Monday-Friday 7AM to 5PM. Meeting attendance or construction schedules may require some evening or weekend work. Overnight stays may also be required.

Salary and Benefits

Salary will be established at a level comparable with other senior level engineering positions in the industry. Company benefits include 100% paid family health insurance, company match to 401k, profit sharing, paid vacation, and 9 paid holidays.

How to Apply for this Position

Applications for this position should be sent to: Human Resources Director, Brosz Engineering, Inc., 109 South Main, PO Box 357, Bowman, North Dakota 58623 or can be emailed to Human Resources at hr@broszengineering.com
